### **AMENDMENT UNDER ARTICLE 19**

Dear Sir:

In response to the Search Report dated 27 September 2005, please amend the above-identified application as follows.

#### **In The Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Currently Amended) An apparatus for radially expanding and plastically deforming an expandable tubular member, comprising:

a support member;

a cutting device for cutting the tubular member coupled to the support member; [and]

an expansion device for radially expanding and plastically deforming the tubular member coupled to the support member;

a locking device for locking the position of the tubular member relative to the support member; and

an actuator for displacing the expansion device relative to the support member;

wherein the actuator comprises:
